Federal Communications Commission
Office of the Secretary

Gentlemen:

The Commission is again updating its list of states which have certified that they regulate pole attachment rates, terms, and conditions to insure that all certifications comply with amended Section 1.1414 of the Commission's Rules, 47 C.F.R. §1.1414. That Section was recently amended to implement certain provisions of the Cable Communications Policy Act of 1984. Report and Order in MM Docket No. 84-1296, FCC 85-179 (released April 19, 1985). Among the amendments is new Section 1.1414(a)(3), 47 C.F.R. §1.1414(a)(3), which provides that a state regulating pole attachments must certify to this Commission that

It has issued and made effective rules and regulations implementing the state's regulatory authority over pole attachments (including a specific methodology for such regulation which has been made publicly available in the state)

With the exception of the above statement, your certification already includes all of the required information. Accordingly, if your state's rules and regulations are now in effect and include a specific methodology which has been made publicly available in the state, please so certify to the Commission by May 30, 1985.

Receipt of such information by May 30, 1985, will permit the Commission to retain your state on our certification list. Therefore, your prompt attention and cooperation are appreciated.

Please address your certification and any inquiries to:
